■ Hi this is Minami! This summer I enjoyed myself  
and drew another story full of Cool Boy\* visuals. ♪  
[Actually, I do that all year long! Though really, no  
matter how many times I draw boys with nothing  
but an apron on, I'll still love it. I love it so much that  
one of these days I'd like to draw a manga with not  
just the ybs dressed like that but the wives, the older  
men, and even the minor characters as well. ♡ ♡  
Anyway, this time it's another book full of nothing  
but the things I love. It's the doujinshi I only get to  
look forward to twice a year, so please read it with  
an open mind! ♪
